Hi Bill,
lovely job, correct to the "mm", it will take me a few days to add text to bases, but once I've set up display I will send you some pics for site, I have offered up one unit and it looks and fits great, acrylic is crystal clear and with the clear shelves and mirrored back the motorcycle models are kept vibrantly illuminated, I am very pleased with the result and am glad I chose you over US company to make these items, It is great to have had such specific requirements and to get back exactly what you wanted, all clearances really are minimal and fit and finish are excellent.
Great personal service with highest workmanship.

I walked in through the front door and there it was, arrived this morning. Many thanks. My hat goes off to you, a superb piece of craftsmanship, even the packaging was a work of art. I have had a quick dry fit and it is perfect size. My wife is now looking at me with that 'where do you think you are going to put then' expression on her face.

There is a slight scratch on one of the end pieces of plastic sheet, I think I must have done it on unpacking, is there any way to get rid of it?

Once again, many thanks, I will be ordering another once I have the next ship built.

Regards
Andy

Hi Bill
